

Triad is your complete single source solution for machine guarding.

Structural Aluminum Extrusions

- Provide unlimited flexibility & versatility
- Clean, aesthetic appearance
- Available with safety interlocks, controls, and accessories
- Easily re-configurable
- No welding, cleaning, grinding, or painting
- Available in bulk, kit, or completely assembled units
- Steel guarding solutions also available

Design

Send us your floor plan and we'll design a guarding solution including all necessary safety controls and interlocks.

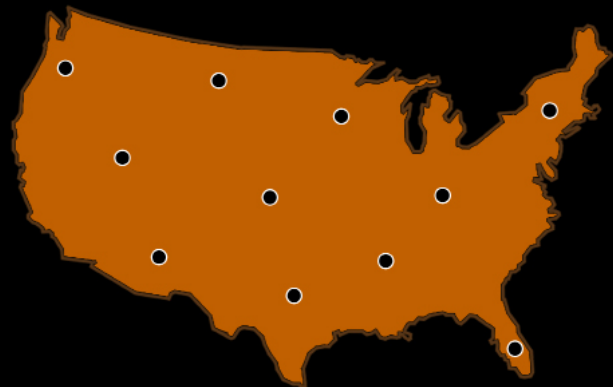

Fabrication

Your guarding kit will be packaged in panels and staged for convenient assembly.

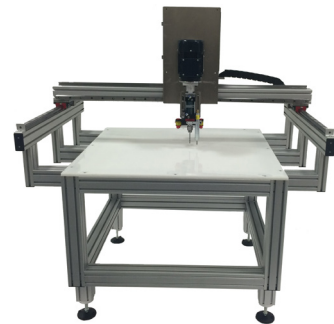

Installation

Our teams assemble and install your complete guarding solution at your location or your customer's facility.

We assemble and install on-site anywhere in North America!

AVAILABLE IN BULK, KIT, OR COMPLETELY ASSEMBLED UNITS
