# *Brands You Rely On. Services You Can Trust.*

**Triad provides the technical knowledge, application assistance and custom solutions to help you grow your business.**

Founded in 1981, Triad Technologies is one of the region's leading distributors of hydraulic, pneumatic, automation, filtration, and lubrication technologies. We are a premier, full-line stocking distributor of Parker Hannifin products, as well as other industry leading brands.

A dark blue, trapezoidal button with a repeating pattern of small, light-colored leaves. The text 'WATCH VIDEO' is centered in white, uppercase letters.

**WATCH VIDEO**

We provide full-service solutions for your motion and control applications by combining engineering expertise, parts, and specialized services with an experienced team that's fast, fair, and forward thinking.

No matter where you are or what you need, Triad is your best defense against downtime.

# Exceptional Products

We carry a broad range of products from brands you know and trust.

# Expert Services

To complement our brands, we offer a full suite of support services. We deliver critical knowledge, specialized solutions and expertise that can improve your organization's productivity and extend the value of your equipment.

## Engineered Systems & Manufacturing

**Product expertise, critical application knowledge, and custom solutions**

From motion-control components to complete integrated systems, we partner with our customers to offer the best solution for a variety of applications:

- Electromechanical
- Hydraulic
- Pneumatic
- Lubrication
- Filtration
- Electrical Automation

## Service & Repair

**Offering a wide range of installation and repair services**

Our service center is staffed by factory-trained technicians who have the experience and knowledge to complete any job, including trouble-shooting and inspection, assembly and testing, tube and hose fabrication, hydraulic assemblies, preventative maintenance and more.

## Kitting & Sub-Assemblies

**Freeing you to focus on your core competencies**

With our kitting service, we take your BOM and pre-assemble, organize and package the components to meet your specific requirements. Kits are assigned one part number, so you can reduce receiving and purchasing time while eliminating the complexities of managing hundreds of individual parts.

## Vendor Managed Inventory (VMI)

**Get the right products at the right time in the right place**

Our VMI program helps control inventory accuracies and forecasting while eliminating stockouts. Triad's team of inventory management specialists support the program by assisting with all application requirements, providing guidance, and conducting product or assembly training as needed.

### Mobile Services

#### Meeting you when you need us most

Our dedicated team of mobile service and repair technicians offer on-site installation, maintenance and repair services. Whether it's a simple hose assembly or total system installation, we'll bring the proper tools and parts to get the job done right. Our experienced team of on-site techs can bend, flare, cut, crimp and fit almost any assembly.

### Industrial Profile Services

#### A single-source solution for bulk, kit, or completely assembled units

Triad can develop the framework for all your structural design requirements from worktables, protective barriers or linear systems to complete machine and perimeter guarding. Our experts will design, fabricate, assemble and install all solutions that meet your specifications while ensuring that necessary safety controls and interlocks are in place. Triad can assemble and install onsite anywhere in North America.

### ParkerStores

#### Premier products and support, all in one place.

Whether you need a replacement part to avoid down time or you're looking for a complete system solution, our ParkerStores are your local, one-stop shop for expert support and Parker Hannifin products, including hose assemblies, hydraulics, pneumatics, filtration and more.

We are a premier full-service stocking distributor of Parker Hannifin: Hydraulic Technology Center (HTC), Pneumatic Technology Center (PTC), Automation Technology Center (ATC), Connector Technology Center (CTC)
